

Homes Built for the Future

Welcome to Live Green

With over 40 years of residential construction experience, Andrew Hopper and Aaron Anstis are passionate about improving home liveability and the construction industry's relationship with the environment.

We are a local award-winning family business building quality dream homes that are built for a sustainable future. From inspired new homes to contemporary townhouses, we work closely with our clients to ensure our vision aligns with theirs.

We manage all the complexities of dealing with Councils, Building Surveyors and Design Panels to provide our clients with an enjoyable, positive, and hassle-free experience through every step of the journey. Live Green homes is a partnership between Hopper Homes Building Services and Geelong Building Solutions (formerly Hotondo Homes Ocean Grove).

Why build with us

- ✓ You are passionate about building an environmentally friendly home
- ✓ We have over 40 years of residential construction experience and have built over 800 homes
- ✓ We are a member of Master Builders Victoria and are accredited Passive House Consultants and Tradespeople
- ✓ We are continually striving to improve the construction industry with better standards one house at a time
- ✓ We have a community of like-minded trades and suppliers that help us deliver homes built to better liveability and environmental standards
- ✓ We build far and wide, stretching across the Geelong, Surf Coast and Bellarine regions, from small suburban blocks to rural acreage
- ✓ We will work closely with you through every step of the process to deliver custom dream homes built for the future.
